

Milestone 3 & Structure Technical Report Rubric

Course: Spring 2026 ME 597 - Merge

Criteria	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submission 0 points	Criterion Score
Project solution	Thorough and clear explanation of the solution. Detailed interpretation of output and explanation of how the solution addresses the problem. Identifies limitations with ranges of operation.	Provides a clear explanation of the solution with interpretation of output. Some explanation of how the solution addresses the problem. Identifies some limitations.	Basic explanation of the solution with limited interpretation of output. Some connection to the problem is made. Limited identification of limitations.	Vague or incomplete explanation of the solution. Little or no interpretation of output. Limited or no connection to the problem or identification of limitations.	No submission or project solution.	/ 10

Criteria	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submission 0 points	Criterion Score
Anticipated benefits and adoption	Thoroughly describes the major benefits to the company and outlines challenges for permanent adoption. Clear understanding of potential impact and feasibility.	Describes the benefits to the company and outlines some challenges for adoption. Acknowledges potential impact but lacks full feasibility discussion. Describes the project work, technology/devices, and problem-solving. Addresses some ethical/privacy considerations.	Provides a basic description of the benefits with limited discussion of adoption challenges. Tentative understanding of impact and feasibility.	Vague or incomplete description of the benefits and challenges. Minimal understanding of the impact or feasibility of adoption.	No submission or anticipated benefits and adoption.	/ 10

Criteria	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submission 0 points	Criterion Score
Human factors and impact	Detailed analysis of the impact on workers or operators. Describes both benefits and challenges clearly. Explores how other workers' roles may change due to the solution.	Describes the impact on workers/operators, highlighting some benefits and challenges. Mentions possible changes to other workers' roles.	Basic description of the impact on workers/operators with limited discussion of benefits and challenges. Mentions potential changes to roles but lacks detail.	Minimal or unclear description of human factors or impact. Little to no mention of benefits, challenges, or role changes.	No submission or human factors and impact.	/ 10

Criteria	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submission 0 points	Criterion Score
Personal learning and take aways	Individual responses are thorough, reflecting on expectations, shifts in perspectives, and personal growth. Detailed insights into key learnings from the project experience and interactions with the company.	Individual responses reflect on expectations and shifts in perspectives. Provides some insights into learnings from the project and interactions with the company.	Basic individual responses with limited reflection on expectations or learnings. Some mention of interactions with the company but lacks depth.	Minimal or unclear individual responses. Little to no reflection on learnings, expectations, or company interactions.	No submission on personal learnings and take-aways were offered.	/ 10

Criteria	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submission 0 points	Criterion Score
Communication Channels	Detailed communication plan with well-defined roles, methods, and frequency of communication.	Describes communication plan with defined roles, methods, and frequency.	Provides a basic communication plan but lacks detail or clarity in roles or frequency.	Incomplete or unclear communication plan. Little or no mention of roles or methods of communication.	No submission or communication channels.	/ 10

Criteria	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submission 0 points	Criterion Score
Next step proposals	Comprehensive recommendations for next steps, identifying missing pieces for full functionality. Offers additional suggestions for company benefit.	Provides recommendations for next steps, identifying some missing pieces for functionality. Offers some suggestions for the company's benefit.	Basic recommendations for next steps with limited identification of missing pieces or suggestions for improvement.	Minimal or unclear recommendations. Little to no identification of missing pieces or suggestions for the company.	No submission or next steps and recommendations.	/ 10

Criteria	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submission 0 points	Criterion Score
Training Document Usability for Implementation	The structure technical report is detailed and organized, enabling someone unfamiliar with the project to easily understand and implement the solution. Clear step-by-step instructions are provided, with all necessary components and setup steps explained thoroughly.	The document provides sufficient detail and organization for someone unfamiliar to implement the solution, though minor clarifications may be needed. Most components and steps are explained adequately. Describes tasks with assigned responsibilities and a basic timeline. Includes some internal milestones.	The document contains a basic outline of instructions, but some steps or component explanations lack detail, potentially requiring external clarification for full implementation.	Instructions are vague or incomplete, making it difficult for someone unfamiliar to follow and implement the solution. Significant details on components or steps are missing. Limited or unclear description of tasks, responsibilities, and timeline.	No submission of training document.	/ 10

Cri ter ia	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submissi on 0 points	Criterion Score
(S tr u c t u r e T e c h n i c a l R e p o r t)						

Criteria	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submission 0 points	Criterion Score
Component and Solution Documentation (Structure)	Includes a detailed description and clear images of all components and their functions. Video or picture of the assembled solution is included, aiding visual comprehension.	Provides descriptions and images for most components, with a picture or video of the assembled solution, though some minor details may be missing.	Describes and provides images of some components but lacks clarity or completeness. A video or picture of the assembled solution is partially helpful but incomplete.	Minimal or unclear component descriptions, with missing or unclear images. The assembled solution lacks visual representation.	No component or solution documentation provided.	/ 10

Cri ter ia	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submissi on 0 points	Criterion Score
r e T e c h n i c a l R e p o r t)						

Criteria	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submission 0 points	Criterion Score
Functionality and Testing Examples (Structure)	Thoroughly describes the solution's functionality, with clear test cases and sample outputs. Video demonstrations (if applicable) showcase proper operation and expected outcomes.	Describes functionality and provides relevant test cases and outputs. Videos or demonstrations illustrate key functionalities with minor gaps in explanation.	Basic functionality description, with limited test cases or examples. Demonstrations are included but lack detail.	Functionality is minimally described, with few or no test cases and limited examples of operation.	No functionality description or testing examples provided.	/ 10

Cri ter ia	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submissi on 0 points	Criterion Score
h ni c al R e p o rt)						

Criteria	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submission 0 points	Criterion Score
Dataset and Output Interpretation (Str	Provides a well-organized sample dataset for calibration and testing, along with detailed output examples. Clear samples of how to interpret outputs, including expected ranges and variance explanations, are included.	Includes a sample dataset and output examples, with some interpretation. Some details on output analysis may be missing but overall useful for testing.	Provides a sample dataset and basic outputs, with limited interpretation or explanation.	Dataset and outputs are minimally included, with little to no interpretation guidance.	No dataset, outputs, or interpretation provided	/ 10

Criteria	Excellent 10 points	Good 8 points	Satisfactory 6 points	Needs Improvement 4 points	No Submission 0 points	Criterion Score
